

## WHO WE ARE

Founded in 2015 by Fred Khosravi and the late Dr. Nick Hopkins, Imperative Care® is a medical technology company accelerating the development of life-changing technologies to bring better care to more patients suffering from stroke and other devastating vascular diseases.

## OUR VISION

### Bringing More Care to More People

We develop innovations that deliver a real impact for patients and their families, with a focus on making these technologies available more broadly.

## OUR MISSION

### Elevating Patient Care™

We are addressing gaps across the entire patient journey – from detection through recovery – to elevate care for patients suffering from stroke and other devastating vascular diseases.

## OUR APPROACH

### The Patient at the Center

Improving long-term patient outcomes requires more than just improving thrombectomy. We aim to treat more patients, optimize procedural outcomes and improve patient recovery.

## STROKE

### Elevating Stroke Care®

Our Stroke business delivers life-saving interventional solutions for patients with ischemic and hemorrhagic stroke for the best chance of a full recovery.

The Zoom Stroke Solution™ is a purpose-built system for the treatment of ischemic stroke.

## VASCULAR

### Elevating Vascular Care

Our Vascular business is transforming thrombectomy care for people suffering from devastating vascular diseases, including pulmonary embolism

The Vascular portfolio includes the Symphony™ Thrombectomy System for venous clot and Prodigy™ Thrombectomy System for arterial clot.

## ROBOTICS

### Making Life-Saving Stroke Treatments Accessible to All

Telos Health™ is using robotics and automation to optimize vascular intervention with the goal of making life-saving stroke and vascular thrombectomies accessible to more people.

## DIGITAL HEALTH

### Improving Quality of Life for People Affected by Stroke

Kandu delivers tech-enabled healthcare services to stroke survivors and care partners, supporting a safe and successful transition home after hospital discharge.
